

1ST KOLKATA PANCREAS MEETING

ORGANIZED BY
LIVER FOUNDATION,
WEST BENGAL

Dear All,
Greetings from Kolkata !

It is with immense pleasure that we announce the first ever “ Kolkata Pancreatic Meet” under the auspices of Liver Foundation West Bengal.

With medicine constantly evolving it is only prudent that we persevere to keep enlightening ourselves and our future generations every day. Here is hoping that we create ripples in the field of Pancreatology that percolates through the gastroenterology community at large and helps us in our endeavours to unravel the mysteries of our day to day encounters with the very vast and deeply nuanced science of our field.

In the inaugural meet of this biennial event, we intend to focus on the hardcore issues pertaining to the pathophysiological aspects of the different pancreatic diseases and the various areas of clinical voids which are yet to be filled in the management of pancreatic disorders.

This meeting will be held on the 16th and 17th of December 2023 at Taal Kutir Convention Centre.

It will give us immense pleasure to host you all in the City of Joy!

Regards
Kshaunish Das
Kishalaya
Srijan Mazumdar
